***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

applicant's arguments on pages 8-10 in amendment filed on Dec. 9, 2005 are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Papay et al. (US 2003/0208251) disclose a blanket system for temperature regulation of a patient, but lack the configuration specifically as claimed including a return duct extending from the return manifold and terminating proximate the supply manifold; Bieberich (6,519,964) disclose a cooling device for temperature regulation of a patient, but lacks the configuration specifically as claimed including a return duct extending from the return manifold and terminating proximate the supply manifold; and Kocurek (6,493,889) discloses a cooling cover apparatus, but lacks the configuration specifically as claimed including a return duct extending from the return manifold and terminating proximate the supply manifold.
